

## BlackT Electrotech XK-W2002 Temperature Controller Socket Type

### Specifications:

- Temperature measurement range: -50-110 degrees C
- Temperature control range: -50-110 degrees C
- Control accuracy: 0.1 Degrees C
- Measurement input: NTC10K Output Type: Direct Output
- Output capacity: MAX10A
- Input power: 110-220V Power: 250V/10A

## Applications:

- Incubator Heater
- Water Heater
- Floor Heating
- Refrigerator
- Greenhouse
- Basement Garage
- Shed
- Aquarium Heater

## Instructions:

- Up button: Press once to display the start temperature, long press set start temperature
- Down button: Press once to display stop temperature, long press to set stop temperature

## Package included:

- 1x Temperature Controller
- 1x Temperature Sensor
